

FOR IMMEDIATE RELEASE

Association of Energy Engineers Recognizes CALMAC CEO as Regional Energy Engineer of the Year

*Mark MacCracken chosen for his outstanding accomplishments in
promoting energy efficiency*

Fair Lawn, N.J. – November 3, 2009 – The Association of Energy Engineers (AEE) presented its 2009 Regional Awards today, and CALMAC CEO Mark MacCracken received the Region I Energy Engineer of the Year award. This award is given to an individual for outstanding accomplishments in promoting the practices and principles of energy engineering and for superior service to the AEE. Chosen from the 10 states that comprise Region I, MacCracken was selected for his continued commitment to energy efficiency and support for advancing energy engineering as a profession.

“When selecting a recipient for the Energy Engineer award, we look for an expert in the industry, one who upholds and advances the principles of the AEE,” said Carl Salas, AEE Awards Chair. “This year we saw that through Mark MacCracken’s overall breadth of work and his work with CALMAC. AEE Regional Awards are presented to energy professionals who have achieved regional prominence in their fields, and Mark fit all our criterion.”

CALMAC is a leader in energy storage systems, making and storing ice at night with its IceBank thermal energy storage tanks. MacCracken, CEO of CALMAC, is on the National Board of Directors of the U.S. Green Building Council (USGBC) and is a member of AEE. He is also a Distinguished Lecturer for ASHRAE and a past Chairman of ASHRAE’s Thermal Storage Technical Committee. Last year, MacCracken was named Energy Engineer of the Year by the New York Chapter of the AEE for his continual support of energy efficiency.

“I am honored to be named the Regional Energy Engineer of the Year by AEE,” said MacCracken. “I got into this industry to help reduce America’s dependence on foreign oil, and cut the world’s greenhouse gas emissions through solar and thermal energy storage. AEE is a pioneer in the engineering sector, and I’m very proud to accept this award.”

About CALMAC

CALMAC Corporation is widely recognized for promoting peak energy conservation and energy cost savings. An ENERGY STAR® Partner and USGBC

member, CALMAC is a leading manufacturer of IceBank[®] Energy Storage equipment with over 3,300 Ice Storage installations worldwide. IceBank systems enable energy, including renewable wind energy which mainly blows at night, to be efficiently stored for use during periods of high demand.

About AEE

[THE ASSOCIATION OF ENERGY ENGINEERS](#) is a non-profit organization of energy professionals specializing in member and chapter development, training, and certification, including the flagship Certified Energy Manager (CEM[®]) Program. AEE's three conferences and expos each year feature the leading experts in the industry. AEE is celebrating its 32nd year with over 11,000 members in 77 countries and 71 chapters around the world.
