Abby Star

Richard Agata

Weary and despondent, she draws down to the beach, where she has gathered her scattered thoughts and feelings. She climbs the bluff, the sun still high. She knows this moment is heaven-sent.

The auditorium can be transformed from one giant stage to a dozen smaller rooms, depending on the use of the event. The building’s design is such that even the most sophisticated of technologies can be integrated into the space. The Santa Monica Civic Auditorium is a true example of how design and technology can work together to create a space that is both functional and beautiful.

The auditorium, at 1855 Main Street, is the home of the Los Angeles County Fairgrounds. It was designed by the firm of Beckett & Beckett, and opened in 1929. The auditorium is a significant landmark in Santa Monica, and has been the site of many memorable events, including the Academy Award ceremonies.

The auditorium is a rectangular building, with a steeply pitched roof and a large, square tower. The exterior is clad in red brick, and the entrance is marked by a large, arched doorway.

Inside, the auditorium is a large, open space, with a high, domed ceiling. The ceiling is decorated with a series of large, mural-like paintings, depicting scenes from the history of Santa Monica.

The auditorium is a popular venue for a wide range of events, including concerts, plays, and conventions. It is also the site of the annual Santa Monica Chamber of Commerce Convention, which is held in November.

The auditorium is open to the public for various events throughout the year, and is a popular destination for tourists and locals alike. It is a truly unique space, and a testament to the rich history and culture of Santa Monica.
Go Nuts!

It is the delicious harvest of each wrapped in its own tidy pack of extras, too, in anticipation of weeks of December.  It is the gustatory antidote to all that is heavy and starchy, with a sweet, crunchy, savor-y crunch to balance the palate. It is the luscious, juicy harvest that we relish, whether in a buttery toffee or divine nut bar, or as an unadorned cashew to relish. It is the delicious harvest of each wrapped in its own tidy pack of extras, too, in anticipation of weeks of December.

But there is a gustatory antidote to all that is heavy and starchy, with a sweet, crunchy, savor-y crunch to balance the palate. It is the luscious, juicy harvest that we relish, whether in a buttery toffee or divine nut bar, or as an unadorned cashew to relish.

SM Civic Auditorium

Continued from page 15.

Go Nuts!

The configuration of the lobby spaces and auditorium entry doors, the wood paneling along the south wall of the first floor, the two original lobby staircases, the column and configuration of the auditorium main hall space, the adjustable auditorium main hall floor with its folding stage, lift, metal acoustic panels and wall sconces in the auditorium main hall, sound and sound clustering doors to a conference room are among the structure’s most distinctive elements.

Future Plans

Two capital improvement projects are scheduled for the Civic Center in 2005. The East Wing ceiling and lighting will be replaced. The Civic Center’s ceiling and chiller are also being replaced with an ice storage system and chiller, which makes ice at night that is used to cool the Auditorium during the day. It will reduce energy and maintenance costs and will serve as a model project for the City’s sustainability effort.

The City’s proposed Civic Center Specific Plan (SCP) calls for the Civic to give priority to cultural, educational and community-oriented activities and includes plans for a 20,000 square foot addition to the East Wing and a limited amount of underground parking.

When asked how the Civic is doing financially, Carter said that for the period from 2003-2004, the Civic earned $113,877 (228 event days), spent $232,510 in expenses, and spent an estimated $322,350, adding that “the Civic generally operates at a break even level or with a small operating loss.”

One thing is certain: the small auditorium with the big history will be around for a long time.
