TWO CALMAC REPRESENTATIVES ACCREDITED BY USGBC

Englewood, NJ – Two employees of CALMAC Manufacturing Corp, Terrence Andrews and Robert Wegmann, have recently been named LEED Accredited Professionals™ by the United States Green Building Council (USGBC).

LEED Accredited Professionals are experienced building industry practitioners who have demonstrated their knowledge of integrated design and their capacity to facilitate the LEED certification process on the LEED Professional Accreditation examination.

In order to earn their accreditation, Andrews and Wegmann proved their understanding of green building practices and principles as well as their familiarity with LEED requirements, resources, and processes. The accreditation program recognized these two individuals for their expertise in green building and LEED to help meet the growing demand from the public and private sectors for green buildings.

Areas of expertise and knowledge tested on the examination include:

- in-depth familiarity with the LEED Rating System;
- understanding of LEED project registration/technical support/certification processes,
- knowledge of LEED documentation requirements;
- demonstrated knowledge of design and construction industry standards and process;
- general understanding of the various standards referenced in the Rating System;

- more -

CALMAC REPRESENTATIVES EARN LEED CERTIFICATION
